Statement of Qualifications:

I have been a teacher and a researcher in the Life Sciences/Biology area for approximately 39 years. I started my career teaching High School Biology, Algebra I and General Sciences. Recombinant DNA techniques were just coming into prominence at that time and I made the decision to “do” as well as to continue teaching. I worked on and received a degree in Genetic Engineering at San Francisco State University (SFSU). During that time, I also organized and taught a summer program for High School teachers in basic recombinant DNA techniques, taught beginning Biology courses at SFSU, taught Genetics courses at Foothill Junior College and a Cancer course at the Presidio (San Francisco). I went on to organize and start up the Pulsed Field Electrophoresis department at Genentech (Palo Alto). From there I set up and was the Supervisor for the Molecular Hematology Department at Cedar Sinai Medical Center (Los Angeles). As well, I participated in scientific research (hemoglobinopathies), while running the laboratory. Following this, I set up and ran the Molecular Behavioral Lab at UCLA (Los Angeles). I then decided to return to the academic field and received my Master’s and Ph.D. in the field of Cellular and Molecular Biology at the University of Nevada, Reno, followed by a 2-year Post Doc at the same institution. After teaching Biology 101 at the University of Reno, Nevada as an adjunct Professor and being a part time lecturer at Sierra Meadows Community College, I made the decision to work in the town that I lived in, instead of commuting to UNR, and finished my teaching career at Truckee High School (THS). For the last 4 years at THS, I was a member of the negotiation team for the Tahoe Truckee Teachers Association (secretary for 2 of those years). I retired from full time teaching but still substitute at the present time. I am also in the process of becoming a member of the Professional Women's Society. My career has involved teaching, listening to others, being the author of scientific publications, organization and setting up of laboratories and speaking at scientific conferences.

I moved to the Twain Harte area approximately a year and a half ago and would like to be more involved in the community. I would find it a privilege to be a part of an organization that works on the behalf of the community that I live in. I feel that being a member of the Twain Harte CSD board would give me that opportunity and it would be an honor to serve in that role.

Marlene Charlotte Bohlman, PhD

Bio for Twain Harte CSD

Charlotte Bohlman has had a career in teaching (at levels from High School to University), scientific research and laboratory set-up for approximately the last 40 years. She (as well as her husband) moved to the Twain Harte area about 1½ years ago. All of her immediate family live in Twain Harte and this, as well as the opportunity for numerous outdoor activities and the beautiful surroundings prompted the move from Truckee, CA.

Charlotte Bohlman has obtained a BS, Master's and Ph.D. in the area of Biology, Genetic Engineering and Cell & Molecular Biology (with an emphasis on Virology), respectively.

Ms. Bohlman is presently substituting at the High School, exploring the possibility of being a part time educator at the Community College level and becoming involved in the Professional Women's Society. However, this in no way would impinge on time and responsibility to the Twain Harte CSD, should I be chosen to serve on the Board.

Ms. Bohlman has been involved in numerous activities that have developed her organizational, functional and listening skills. These have included, but are not limited to, setting up and running workshops and teaching/lecturing at all levels, including High School to University, as well as professional scientific communities. She has been involved in the set-up, running and teaching of several laboratories, which includes workshops for High School teachers so that they can pass on the principles of recombinant DNA techniques to their students.

Ms. Bohlman was also involved with the Teachers Association of Truckee Tahoe at the negotiation level and further developed her skills in the areas of listening, proposing ideas and working with others.

Ms. Bohlman would be honored to be a part of the work and responsibility that the Twain Harte CSD Board performs (keeping in mind financial resources) in supporting fire, water, sewer and parks in the District

EXECUTIVE DEPARTMENT
